

Speech & Language Therapy

What we do

- we assess and treat speech, language and communication problems
- we help with eating, drinking, chewing or swallowing difficulties
- we work with parents, carers, teachers and other health professionals
- we work in nurseries, schools, hospitals, clinics and in your own home

Our services

Adults

- we help adults who have been ill or injured
- we help adults who have long term conditions like dementia or Parkinson's disease
- we help adults with learning disabilities

Children

- we assess and treat babies, pre-school and school age children
- we can help at home, in school, in clinics or in hospital

Things we help with

- speech, language and communication problems
- feeding and swallowing problems
- stammering
- hearing loss
- learning disabilities
- autism or problems with socialising

How to see us

- your GP or healthcare professional can refer you to us
- adults can contact us directly by phoning
